IRAN - THE GLOBALIST CONTROL HUB

Iran is not run by one group, it is steered by a Globalist syndicate of intelligence operatives from dozens of countries.

Sitting at the same table are; CIA/Mossad, Britain, Germany, France, China, and the Deep State. Every major power has its man sitting in Tehran.

Every single one of them owns a piece of this International Fraud.

President Trump isn't just taking on Iran, he is dismantling a global coalition of twenty four Countries.

Iran is the Achilles Heel of the Globalist Communist Cabal.

They established their network of control through Tehran.

And they will not surrender it without a fight.
