NEW WORLD HEALTH ORG (WHO) GUIDELINES: School children under 4 to be taught "Masturbation" & "Gender Identity"

### **Lockdown**

This is World War 3 between the Globalists & the Nationalists. We don't know at this stage whether our UK government lockdown is protecting us from another CV attack or if we are being locked down by The Globalists. The test will be when they bring out the vaccine & line us up. If you look at the CV attack areas you see Italy, USA & China as the main targets. (5G or CV?) The Vatican is obviously a top World City of Power & Control, But who is next ?

The Globalists will obviously use this situation to grab power but in the UK there is no sign of any deaths, let alone mass deaths.

The people who are dying are either in old peoples care homes or people who have been discontinued NHS treatment for their existing illness.

The hospitals are empty although they are setting up army hospitals (to vaccinate?).

Our government is fragmented daily by the Globalist media & The United Nations Socialist Sanctuary Cities (107) wait for their opportunity.

Its all to play for.

### **Media**

The integrity of the London Media died years ago. I don't know which justification they use for their war on Humanity.

London is totally isolated as are The Media, the Government, all surrounded by; think tanks, lobbyists, corporate & banker bribes into what is basically a Criminal Cartel. Like all the other Criminal Cartels in the London & the Countrywide administration.

Not only is the Government administration too corrupt for reform (Pentagon assessment) but the surrounding leeches & public servants are beyond criminality.

A criminality so widespread that it can't be seen from within a superior egalitarian ideology.

London is dying from within & if they don't wake up the 107 County/City United Nations Socialist Sanctuary City Councils will take over.

BREXIT: “Limited progress” made in Round Two of UK-EU Negotiations

A statement put out by the Government says that round two of the ongoing EU-UK Future Relationship negotiations were “*full and constructive... conducted remotely by video conference, and with a full range of discussions across all the issues*”, however “*limited progress was made in bridging the gaps between us and the EU.*” *The Government is demanding the EU drops its insistence on imposing conditions on the UK which it doesn't impose on other countries if progress is to be made on the so-called level playing field...*

The Government claims there is “promising convergence in the core areas of a Free Trade Agreement, for example on goods and services trade, and related issues such as energy, transport, and civil nuclear cooperation.”, however the EU’s offer on goods trade “*falls well short of recent precedent in FTAs it has agreed with other sovereign countries.*” *The next round begins on the 11<sup>th</sup> May...*
