

It's Rome vs Babylon as Undeclared Western Civil War Reaches Crescendo

The undeclared civil war in the West has opened a long-hidden schism in Western civilization: the contradiction between Egyptian and Mesopotamian traditions (Babylon) and Greco-Roman-Germanic European traditions (Rome). This schism has been revealed for all to see by the ongoing fake pandemic.

Babylon gave us monotheism, financial accounting, and much of modern medicine, while Rome gave us a strong military, science, the rule of law, and Democracy.

So now in the news, we see Babylon using control of money to bribe governments and control of medicine to scare people into a single, monolithic, totalitarian power structure. Those who believe in the rule of law and democracy are fighting this structure.

In this battle, there can be no doubt that Rome will prevail. The reason is that the creator is on their side. What this means is that science, the study of facts based on observation, will prevail over lies, even endlessly repeated lies. The facts are that over magnified PCR creates bogus numbers to instil fear, and Covid-19 is a collection of symptoms for a virus that has not been truly "isolated" and therefore does not exist, which means the entire pandemic martial law and coerced vaccination scam are war crimes.

OK let's get a bit more concrete here. Sources in Western intelligence, including MI6, the P3 Freemasons, and Mossad tell us they are waiting for court cases to prove the pandemic is a war crime before taking full military action against the Cabal. They say they support the various legal actions being taken by Reiner Fuellmich and his colleagues around the world against the pandemic and vaccine pushers.

In the testimony at the link above Dr. Fuellmich says that if you told him a year ago that a small cabal wanted to kill a huge portion of humanity and enslave the rest, he would have suggested you need to go to a mental hospital. Now, having obtained testimony from hundreds of experts in various fields, he can and is proving in courts of law that this is exactly what has been happening.

It is no coincidence that freedom day was declared in the UK today, July 19th as all restrictions related to the fake pandemic are lifted. <https://www.reuters.com/world/uk/pm-johnson-pleads-caution-freedom-day-arrives-england-2021-07-18/>

In fact, this day celebrates the end of two centuries of Rothschild rule in England and is likely to become a permanent holiday, MI6 sources say. MI6 summed up the situation:

"The first issue of Queen Victoria was a bastard of Rothschild making the whole line constitutionally illegal...The Rothschild family for the purposes of MI6 is a proscribed terrorist organization as is their Khazarian Mafia (KM) collective...all of this nonsense we are dealing with is because the Rothschild Fifth Column are running and hiding and now they have met their match. Terrorists use terror, military use intelligence."

There are growing signs that Canada and the United States will also soon be freed from the KM. The fake Biden administration, for example, is visibly falling apart on multiple fronts. This is especially true on the financial front where the Babylonian debt slavery scam is blowing up. The Federal Reserve Board has been pumping money into the banks and stock markets like there is no tomorrow but to no avail. The chart below shows that by June of 2021 banks had \$7 trillion more in deposits than loans. In other words, nobody wants to become debt slaves to the fake money they are pumping into banks.

The money they are pumping into the stock markets is also leading to absurd things such as companies like Apple and Microsoft having a bigger market cap than the GDPs of countries like Canada or Russia.

When you see billionaires like Jeff Bezos trying to go into space, it is a sure sign they have run out of things on earth to spend their stock market funny money on.

Then, of course, signs of inflation keep piling up as the funny money sloshes around. <https://www.zerohedge.com/economics/us-producer-prices-soar-record-pace-june>

Also, fed-up Americans are now refusing to take low-paying slave jobs. <https://www.zerohedge.com/personal-finance/what-reasons-do-unemployed-give-turning-down-job>

Internationally, the doomed Biden KM slave regime is becoming a pariah. For one thing, they are unable to use their fiat dollars outside of the United States and this means they are desperately scrounging for money. Last week they tried and failed to issue \$650 billion worth of IMF special drawing rights to funnel to governments and pharmaceutical interests, according to Japanese military intelligence sources.

Their fake Secretary of State Antony Blinken also allowed the “transfer of Iranian funds in restricted accounts to exporters in Japan and the Republic of Korea,” the Washington Free Beacon reported. Translation: they seized money in frozen Iranian accounts by pretending it was to be paid to Korean and Japanese slave states.

We also saw an announcement “the White House and Treasury Secretary Janet Yellen have no plans to restart regular U.S.-China bilateral talks on the economy.” Yellen called out China for imperilling the “rules-based international order” constructed after World War II after China refused to attend a G-20 meeting between Yellen and the other top global finance chiefs. Translation: she had a hissy fit after the Chinese, Russians, and others refused to attend a begathon staged by KM stooges.

Last week also presented us with the spectacle of White House spokesstrans Jen Psaki/Zuckerg confirming she works for Facebook when she said the Biden administration is “in regular touch” with the platform to ensure correct “narratives” are promoted. <https://nypost.com/2021/07/16/psaki-white-house-in-touch-with-facebook-to-push-true-narratives/>

Then there is the fact that nobody in the Pentagon wants to take jobs for the fake Biden regime. <https://www.politico.com/news/2021/07/16/pentagon-weapons-vacancies-china-499838>

These are some of the reasons why General Michael Flynn put the following out on Telegram [14.07.21 10:29]:

“The future is so much brighter than people can imagine. Nothing about what we are going through is normal and the reason for that is this: We are on the precipice of a new era. This is why you are experiencing so many challenges, this is why you have been tested and trained. The cabal had nearly unchallenged authority before this generation. All that is changing and we aren’t going back. Keep this in mind whenever you struggle. These birth pains are not in vain.”

There is also something big happening in Japan. We received reports from two separate Japanese right-wing sources that Ikeda Daisaku, the leader of the Sokka Gakkai Buddhist sect died on June 18th.

The U.S. military subsequently raided the Sokka Gakkai headquarters in Shinamachi Tokyo and left with two busloads full of arrested people. SG is important because their 7 million or so members and their Komeito political party are essential for keeping the current slave regime of Prime Minister Suga Yoshihide in power. SG workers have been essential to the election stealing process in Japan because they mass-produced fake ballots, according to Richard Koshimizu of the Japan Independence Party and other sources.

It is interesting these raids took place as the Tokyo Olympics begin. The Japanese know the Olympics are like the flowers presented by a domestic abuser following a particularly violent incident. They know the Rothschilds were behind the Fukushima attacks of March 11, 2011, and they know the Olympics are supposed to be a consolation prize for this.

That is why only 22% of Japanese support the Olympics and why Olympic officials are met with boos and protests wherever they go.

This gaffe didn't help:

"Our common target is safe and secure games for everybody; for the athletes, for all the delegations, and most importantly also for the Chinese people — Japanese people," International Olympic Committee President Thomas Bach said. <https://www.msn.com/en-us/sports/other/olympic-size-gaffe-in-tokyo-ioc-chief-bach-calls-japanese-people-e2-80-9cchinese-e2-80-9d/ar-AAM6AkL>

https://www.rand.org/pubs/working_papers/WRA516-1.html

The Japanese have also found out to their disgust that Olympic officials have their own sovereign passports and are above and beyond any laws. They found this out in June when the Japanese Olympic Committee's head of accounting Yasushi Moriya, 52, was murdered and they were forced to label his death a suicide. <https://www.theweek.in/news/world/2021/06/07/japan-senior-tokyo-games-olympic-official-dies-after-jumping-in-front-of-train.html>

Moriya was investigating the systematic use of bribes and embezzlement of Olympic funds.

It turns out the Olympic officials get a 20% cut of all money earned by the event. They can also bribe or murder with impunity. That is why, in a form of retaliation, the Japanese banned all ticket sales to Olympic events using the fake pandemic as an excuse.

What all this proves is that there is a group of people in Switzerland who can hand out special privileges to certain groups that make them "sovereign," and thus immune to all laws.

This is also true of privately-owned groups like the World Economic Forum (headed by Klaus Schwab, a Rothschild), the WHO (run by one of their slaves), and the IMF.

Last week Schwab tweeted the following:

"The World Economic Forum is working with the Biden administration to ensure that most people survive the coming food shortages. Citizens that have up-to-date vaccination documents will receive regular packages of plant-based protein products."

Here are signs of the food shortages Schwab and his fellow KM mafiosi are trying to engineer: <https://gizmodo.com/the-u-s-wheat-crop-is-in-trouble-1847281693>

<https://data.unicef.org/resources/sofi-2021/>

Here meanwhile are threats made at the WEF cyber terror rehearsal earlier this month:

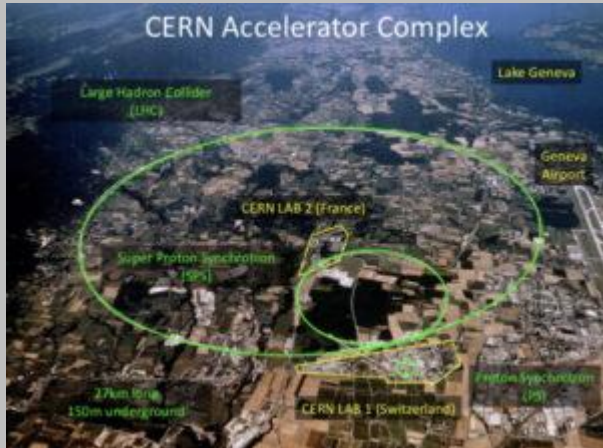

"A single data breach across the ocean could trigger a chain reaction and spark a 'digital pandemic' across the globe. People, organizations, and entire states may fall victim to the catastrophe...Information and money remain the main target of cybercriminals."

https://cyberpolygon.com/upload/Cyber_Polygon_report_results_2020_EN_v1_1.pdf

Their latest crime appears to have been a failed Stuxnet attack on a Belarusian nuclear power plant. <https://www.lrt.lt/en/news-in-english/19/1449365/belarus-disconnects-nuclear-plant-near-lithuania-after-safety-systems-activated>

The NSA and MI6 are also reporting a nuclear explosion in Turkmenistan that is almost certainly linked to the KM.

These people are mass-murdering terrorist psychopaths and need to be removed ASAP. From a military point of view, destroying the KM world headquarters as seen below, may be the only way to remove this parasitic filth from our planet.

Hopefully, this may not be necessary because there are signs all over the world their rule is collapsing anyway.

For example, the South Africans are waking up to their Mandela psyops disguised pseudo apartheid regime.

<https://www.zerohedge.com/geopolitical/south-africa-deploys-military-amid-widespread-social-unrest>

“Following the events in the aftermath of former president Jacob Zuma’s arrest, his son Duduzane has appeared in a video in which he says: “the people that are protesting and looting, please do so carefully and please do so responsibly.” <https://www.iol.co.za/news/politics/zumas-son-duduzane-appeals-to-looters-please-be-careful-while-looting-and-protesting-73a88e6d-826b-411c-a324-769c721d29f9>

There are also protests in Canada, France, Germany, etc. <https://www.msn.com/en-us/news/world/french-police-quell-protest-against-covid-health-passport-rules/ar-AAM9u8w>

Poland, for its part, gives the finger to the KM’s EU by refusing to accept EU court rulings.

<https://notesfrompoland.com/2021/07/16/polish-government-not-planning-to-implement-eu-court-rulings/>

There are also more signs of a regime change in Saudi Arabia, formerly a pillar of the KM petrodollar. <https://www.leaders-mena.com/saudi-female-presents-hajj-conference/>

You can be sure that much more turmoil can be seen worldwide over the summer as the revolution continues.

Finally, I would like to inform readers that I will be taking my annual sabbatical in the Canadian wilderness starting next week so, the next four reports have been pre-written. We will issue emergency reports if something truly significant happens.

However, we recommend that our readers also rest and charge their batteries over the summer because we expect a very eventful autumn.
