

## The Exeter 5G Radiation Grid

At a DCC Cabinet Meeting on January 9th 2019 DCC Civil Servants recommended to Councillors the "Street Lighting Upgrade."

This appeared to be an energy saving upgrade to LED Street Lighting.

Unknown to most Councillors was the fact that LED Street lighting actually is a Smart Controlled 5G remote software system.

This meant that the LED street lights are fitted with a 5G mini cell for Smart Meters & 5G telecoms.

When DCC Civil Servants/Councillors were confronted by the public at the 25th July 2019 Council Meeting. Their reply was that Public Health England had checked 5G radiation dangers & had cleared it as safe. They also said they had no control over planning permission.

For those of you who missed The Infrastructure Act 2015 when David The Crook Cameron destroyed; local planning control, stole all public owned properties, corporatised all UK roads, cancelled Consumer Protection, set up a taxpayer funded Fracking company & introduced TTIP Corporate Control under another name. We now live in a Corporate State.

Public Health England is one of David Le Crook's fake Government departments to authorise all Corporate Projects smoothly through any "Democratic" hindrances like Health & Safety. Central Planning Control & Central Land Registry are others.

Not only do The Corporations have control over planning, costing, maintenance & control of the 5G Radiation Grid. Under UK Corporate Law if DCC obstructs or cancels their contract they have to pay compensation to The Corporations equal to their estimated profits.

**5G has been independently assessed as a Danger to Humanity by;  
The Council of Europe 1815 2011; "The potential dangers of electromagnetic fields and their effect on the environment.  
The Precautionary Principle (UNESCO) was adopted by EU 2005  
The Nuremberg code (1949) applies to all experiments on humans.**

There are also 28,000 reports & scientific data on the dangers of 5G.

These devices are a known source of; cancer, brain tumours, eye damage, foetal damage, heart disease, sleep deprivation etc

It is not an exaggeration to say that these devices are potentially a Weapon of Mass Destruction & Genocide.

The Devon 5G Radiation Grid is being installed by Southern & Scottish Energy (SSE) using Mayflower Smart City software concealed as a "LED Lighting Upgrade." LED Lamp Posts are fitted with a 5G base mini cell for Smart Meters, & 5G telecoms.

This will put £100Bn on our Energy Bills & Council Tax for something that nobody wanted.
