

The Internet of Dead Things

The UK 5G Radiation Grid

County Councils & City Councils across the UK have approved the installation of The 5G Radiation Grid on every lamp post on every street in the UK.

The contracts were put through by Treasonous Civil Servants who fooled Councillors & the public by calling it a "Street Lighting Upgrade."

The LED street lights are all pre fitted with a 5G mini cells for Energy Smart Meters, 5G telecoms, LED Smart Lighting, the Smart City & The Internet of Dead Things. (IOT)

The David Cameron creation, Public Health England has falsely checked 5G radiation dangers & has cleared it as safe. David Cameron's Central Planning Agency over-rides any local planning objections & David Cameron's Central Land Registry hands over local property to the installation companies on the cheap.

For those of you who missed The Infrastructure Act 2015 when David The Crook Cameron destroyed; local planning control, stole all public owned properties, Corporatised all UK roads, cancelled Consumer Protection, set up a taxpayer funded Fracking company, destroyed the NHS budget & introduced TTIP Corporate Control under another name. We now live in a Corporate State.

Public Health England is one of David Le Crook's fake Government departments to authorise all Corporate Projects smoothly through any "Democratic" hindrances like Health & Safety. Central Planning Control & Central Land Registry are others.

Not only do The Corporations have control over planning, costing, maintenance & control of the 5G Radiation Grid. Under UK Corporate Law if County Councils obstruct or cancel their contract they have to pay compensation to The Corporations equal to their estimated profits.

5G has been independently assessed as a Danger to Humanity by;

- The Council of Europe 1815 2011; "The potential dangers of electromagnetic fields.
- The Precautionary Principle (UNESCO) was adopted by EU 2005
- The Nuremberg Code (1949) applies to all experiments on humans.

There are also 28,000 reports & scientific data on the dangers of 5G.

These devices are a known source of; cancer, brain tumour, eye damage, foetal damage, heart disease, sleep deprivation etc

It is not an exaggeration to say that these devices are potentially a Weapon of Mass Destruction & Genocide.

And a National Security breach as the identification & control of the supervision of this potential Weapon Of Mass Destruction could be foreign.

The UK 5G Radiation Grid is being installed by Southern & Scottish Energy (SSE) using Mayflower Smart City software concealed as a "LED Lighting Upgrade."

www.SSE.com

<http://www.mayflowercontrol.com/>

LED Lamp Posts are fitted with a 5G base mini cell for Smart Meters, LED Smart Lighting & 5G telecoms & of course The Internet of Dead Things

This will put £100Bn on our Energy Bills & Council Tax.

This is a Crime Against Humanity.
