

G20 Slave “leaders” pose for photos while their masters struggle to survive

A group of slaves known as the “leaders” of the G20 group of nations have been gathering in Rome and next Scotland to pose for pictures and pretend they run the planet. However, the so-called \$150 trillion COP26 plan they have been gathering for is dead in the water. The masters who ordered them to follow this plan are being hunted down and will soon lose power, CIA, Mossad, MI6 and Asian secret society sources agree.

“The G-20 becomes the showpiece for a dysfunctional global order,” is even how the establishment mouthpiece, the Washington Post, describes the situation.

The fact is the families that own the so-called “global” architecture such as the UN, the BIS, the World Bank, the IMF, the Chinese Communist Party, the United States Corporation etc. are bankrupt.

A group of Venetian nobility and Asian Royal Families have come to an agreement that these families need to be removed from power and control of so-called global institutions. Instead, the people of the planet will be given control, and so, as was long prophesied “the meek shall inherit the earth.”

A visible sign of this is that Queen Elizabeth, the head of the committee of 300 (often called the secret government of the West) is not attending COP26.

“The secret service, the police and the courts are saying enough is enough,” says an Ambassador for Venetian and Asian nobility. “Essentially the Queen is gone. She is under a two-week house arrest [OK palace arrest], and banned from Cop 26,” the Ambassador says. “The act of succession will remove Charles because of the murder of Diana,” he says. “Charles must never be king that is a widely accepted norm,” he adds. Furthermore, Prince William will not be King because he is “an obsequious little creep and we do not like him at all.” Instead, the source says, “The act of installation goes to King George VII or William’s son.”

“We removed the king of Spain because he was essentially the worlds’ biggest drug dealer,” he added.

Another sign is that US Corporate Presidential Spoketrans Jens Psaki (almost certainly a cross-dressing David Rockefeller grandson Mark Zuckerberg) has “contracted Covid 19” despite being vaccinated and has been put under quarantine for 10 days and possibly forever.

<https://www.youtube.com/watch?v=74FN8zsg9pY>

CIA sources say Mark Rockefeller Zuckerberg has also been removed from control of Facebook, which is why it has been renamed Meta which, by no coincidence, means “dead” in Hebrew.

<https://www.timesofisrael.com/facebook-new-meta-handle-means-dead-in-hebrew/>

The fact that Kamala Harris is “desperately trying to get out before she and her husband are outed and sink with the ship,” underlines the ongoing collapse of the fake Biden regime, CIA sources note.

More Clinton (Rockefeller/Hanover) puppets are being rounded up slowly but surely, the CIA says. “They will all sing like canaries for a reduced sentence,” they add.

Another big event coming soon will be the public announcement of the death of

former US Vice-President and CIA head, Dick Cheney, the sources continue. “He died June 29th. They say it was old age. This intel was just released internally four days ago. It has not been released to civilians or the MSM yet,” they say noting: “Wait till this gets out it will be a real game-changer.”

Another bad guy to publicly bite the dust is disgraced ex-New York Governor. Andrew Cuomo -who was charged Thursday with groping a former aide in Albany’s Executive Mansion — a crime that could send him to jail for a year if he’s convicted.

<https://nypost.com/2021/10/28/andrew-cuomo-to-be-charged-over-alleged-groping-of-former-aide-source/>

“I have been told that he is about to be removed, Permanently,” a Mossad source says.

A sign of the continuing arrests taking place in Washington DC is the weekly flights from the nearby Baltimore Airport to the Thule airbase in Greenland. “This is a weekly run for many months now. Each run holds up to 280 passengers. Add this up for at least 6 months [26 weeks times 280=7,280]. That’s a lot of prisoners,” a Pentagon source says.

There can be no doubt that bad guys are vanishing right left and center and this process will continue until THEY ARE ALL GONE, Pentagon sources promise.

Now let us look at some of the latest signs of the economic collapse of their system. The U.S. merchandise-trade deficit hit a new record of \$96.3 billion in September, up from a \$88.2 billion in August (The August figure was revised up from \$73.3 billion).

<https://www.bloombergquint.com/global-economics/u-s-merchandise-trade-gap-widens-to-record-as-exports-decline>

The fact that empty containers are piling up as store shelves get bare are signs the US Corporation failed to borrow money to keep paying for its deficit past October.

This quote sums up the current US system quite well:

“We’re literally paying people in the form of cash welfare, housing, and other services to live in tents on the street, use hard drugs, defecate publicly, and commit crimes,” says [Michael Shellenberger](#),

<https://www.zerohedge.com/political/shellenberger-root-cause-americas-homelessness-epidemic-why-term-homeless-misleading>

However, the collapse of the US has been well reported. What is still not being widely talked about is the imminent collapse of the financial system in Communist China. When that goes, it will be the domino that really does cause the current system to implode.

This writer has long dismissed talk of a Chinese collapse but now the signs are undeniable. The problem is real estate.

There has been a lot of talk about the bankruptcy of the Chinese real estate giant Evergrande. This talk was temporarily silenced when they avoided default by making a last-minute payment on a bond recently. However, it turns out they did not make a payment and this was just fake news meant to prevent a domino-style collapse of the entire global financial system, CIA and other sources say.

The fact is China has no easy way out. The basic problem is their real estate market has lost touch with reality and - no matter how hard you try to avoid it- reality has a way of catching up with you.

The Chinese financial system is real estate based, just like the Japanese one was until their decades-long bubble burst in the early 1990’s. The situation in China is eerily similar to the one in Japan then. Right now 74.7% of Chinese

household wealth is in real estate. However, just like in Japan -when people had to take out 99-year loans to afford a house- apartments in China cost 30 to 40 times the annual salary of a typical Chinese worker.

To add to the problem, there are about 100 million empty condos owned by people who do not live in them. They cannot rent them because if they do, the condo loses value because it is “used.”

The other thing that is happening is China’s population is aging and they are not having enough children. If you ever raised hamsters you know that no matter how much food you give them, they will not have children if their cage is too small. This is what has happened in China with the population being suddenly stuffed into small apartments.

In other words, these are existential problems that cannot be solved without bankrupting and then completely rebooting the financial system. This will affect the entire planet.

The other problem is that the current world financial system is supported not only by loans from China but by debt slavery in the developing world. For example, 34 of the world’s poorest countries are spending \$29.4 billion a year on debt payments, while only getting \$5.4 billion in aid. On top of this, multinational corporations (90% of which are controlled by 700 people) routinely plunder their oil, minerals, etc. without paying anything more than token bribes to corrupt leaders.

<https://www.theguardian.com/environment/2021/oct/27/poorer-countries-spend-five-times-more-on-debt-than-climate-crisis-report>

In a sign of how dysfunctional things have become 2% of Elon Musk’s wealth could solve world hunger, according to David Beasley, director of the UN food scarcity organization.

<https://edition.cnn.com/2021/10/26/economy/musk-world-hunger-wfp-intl/index.html>

The current Western financial system consists of oligarchs using the central banks they own to pump money into the corporations they also own. That is why you have the worlds’ wealth vanishing into a black hole headquartered around Lake Geneva, Switzerland, home of the Octagon group; the real-life James Bond villains of the world.

These criminals, aware their control grid was collapsing, have been trying desperately to vaccinate the world into obedience with a fake pandemic. They planned to inject people with a machine-readable mark of the beast ID (Certificate Of Vaccine ID) and make their ability to earn a living dependent on that ID, according to a Rothschild family whistleblower.

Instead, their scam is falling apart.

Japan was the first major G7 country to rebel, but many others are following.

There are also riots and demonstrations taking place around the world. The fact that four of the top 10 recent iTunes hits were based on “Fuck Joe Biden,” is a clear indication of this popular anger.

This anger is reflected in all the countries still controlled by the Khazarian mafia. For example, we got the following report from Italy:

The media is silent BUT... *There is an ASTONISHING number of large demonstrations in Italy against the Green Pass, since last week employers are fined (€5000??) for each unvaccinated worker who enters a workplace building and similar fines for owners of public spaces such as restaurants and museums, gyms, etc. since 2 months.*

We are hearing similar reports from Australia etc.

Even the Israelis -some of the most brainwashed people in human history- are waking up. The Mossad-linked propaganda site DEBKA acknowledged this by noting nobody was paying attention anymore to their decades-long chant about Iran being “weeks away from getting a nuclear weapon.”

<https://www.debka.com/fading-popular-credibility-in-israel-for-potential-air-strike-to-abort-a-nuclear-iran/>.

In other words the Israelis are no longer going along with the Khazarian mafia plan to kill 90% of humanity with an artificial Armageddon aka World War III.

As the now executed George Bush Sr. famously said “if the people find out what we did we would be chased down the streets and hung from the nearest lamp post.” Well, folks, that process is well underway.

To illustrate this we will end this weeks’ report by showing pictures of some of the treasures seized recently by the white hats from the tunnels under the Vatican:
