

Two World Economic Forum Directors Have Died..

Britain's richest man Sir Richard Sutton, and Petr Kellner, the wealthiest man in the Czech Republic, have recently died.

Both were allied in their support for the World Economic Forum's "Great Reset Fraud."

The Russian President Putin, and the German Chancellor, Angela Merkel, recently released a transcript, of a phone conversation about , "The Great Reset."
An agenda, put forth by the socialist-globalist faction, at the World Economic Forum.

This conversation, included an astonishing exchange.
Which quoted Merkel as saying: "Prince Charles lost another one..."
And Putin replying: "That makes two..."
"Merkel continued saying that; "The first was his favourite you know..."
"With Putin commenting that: "Yes, I have been informed."
"Merkel & Putin ended agreeing: "This is not a coincidence."

The context surrounding this remarkable exchange between President Putin and Chancellor Merkel.

Shows that Prince Charles was the main proposer of "The Great Reset" socialist-globalist agenda.

Two of whose staunchest socialist-globalist allies for this agenda were Britain's richest man Sir Richard Sutton, and Petr Kellner, the wealthiest man in the Czech Republic.

Prince Charles first met Kellner when he visited the Czech Republic in 1991.
And in 2009, saw him leading the effort to select Kellner as the Global Leader of the World Economic Forum.

Prince Charles, helped to select Kellner, as the Global Leader, of The World Economic Forum.

A fortnight ago, on 27 March, it was reported that Petr Kellner, was killed in a mysterious helicopter crash in Alaska.

Then recently, it was reported, that Sir Richard Sutton was mysteriously stabbed to death, at his home, in the west of England.

Mysterious deaths, that have now been joined by the news, that the father of Prince Charles, Prince Phillip, (the husband of Queen Elizabeth II), died in hospital at the age of 99.
