

Witan's - Wise Lawful Councils/Assemblies/Moots, ..

I think this could be a framework
of how our natural Common Law Constitutional principles could work
with regards to our ancient customs and Witan's.

Due to serious breaches of the Constitutional Coronation Oath and acts of treason,
in 2001AD our Great Constitutional Security & Restoration Clause,
Article 61 of our original and Constitutional Magna Charta1215,
was lawfully and correctly invoked through Constitutional Protocols.
Lawful Local and National Witan's can now be quickly established,
with more of a focus on common sense,
free thinking, logic and wisdom
and other natural Common Law principles,
such as fairness, transparency, democracy, accountability,
cause, do or suffer no harm,
freedom, abundance, truth, honesty and personal sovereignty, ..
to replace all the unlawful treasonous fraudulent corporate councils.

Rule of Law - Creator's universal natural law
recognised, acknowledged and intuited
through the wisest, most humble people
who accept the truth about our Creator
and make efforts to consciously connect with our Creator
through humble prayer
and the deepest most intense listening, ..
constantly or as often as possible.

All those who lawfully stand under the natural law principles
within the 2001AD lawfully invoked a61 of MC1215
have the most lawful authority.

The a61-Witan's can:
convene proper lawful Common Law Juries/Courts and
lawfully challenge all the living wo/men members

of these corporate local, regional, national
and global 'governments'/councils
to prove their claims of whether they have any lawful authority
and halt and end all harmful technologies, ..
and unlawful, dishonest, fraudulent, oppressive
and treasonous policies and agendas, ..
including coercion, deception, extortion, harassment,
bullying and racketeering with menaces, ..

The a61-Witan's can:

help organise Independent Local & Worldwide Truth Media Networks and
train Common Law Peace Constables, .. and
can help organise trained voluntary workers to organise
the serving and protecting of local people,
especially the most vulnerable ones,
such as the elderly, sick, disabled and children
but respecting the natural Common Law rights of the parents and families
and maintaining all the necessary and required infrastructures, ..

The a61-Witan can also establish a lawful Treasury, Currency and Mint
and energy harnessing/communications
and safe, clean & harmonious electricity distributing power supplies,
based on Nikola Tesla, .. Turbine & Standing Wave Coil, .. principles
and help organise impact proof agriculture glass/green-house farming, ..
invest in Organic Hemp Farming
and preserve and store best quality food and water, ..
help organise efficient safe Public Transportation,
Natural Holistic Health Education, Healing, Respite
and Skills Training Services, ..
help build & maintain healthy, attractive, affordable
and sustainable homes, ..
and some of the finer detail of community life,
such as:
help organise Cultural Leisure Services, ..
Public Houses, Youth Clubs, Playgrounds,
Colleges, Attractive and Nature Parks,

Theatres, Spa's, Sports, Dance, Art, Craft, Music
and Fitness Centres, Museums, Libraries, ..

We the people can select, invite and elect at least twelve of those
who we feel to be the wisest in our community
to become temporary representatives
in service to our local people, .. through the Witan's
and we can remove and elect new members of the Witan,
if we lose trust, .. in any of the members.

Whenever there are disagreements in our communities,
if we can't find ways to resolve them,
then we can split and start new Witan's.

One member of every local Witan
can be elected to be a member of the Regional Witan
of Wales, England, Scotland and Northern Ireland, ..
and the National Witan
of the United Kingdom of Britain
and the Commonwealth of Nations.

The National Witan would be responsible for:
electing the most suitable Constitutional Monarch/Commander-in-chief,
help organise the most effective Defence of our nation
and Emergency Response Planning, ..
assist with international Peace, Diplomacy and Trade if necessary/required,
help organise and oversee our national infrastructures,
such as travel and transportation,
maintaining, improving, integrating and fully re-opening our required railway
ports and canal, .. networks
and oversee that our natural unalienable Common Law Constitutional principles
are being acknowledged, respected and accurately promoted for everyone, everywhere, ..

The Witan (lit. 'wise men') was the king's council in Anglo-Saxon England from before the seventh century until the 11th century. It was composed of the leading magnates, both ecclesiastic and secular, and meetings of the council were sometimes called the Witenagemot.^[note 1] Its primary function was to advise the king on subjects such as promulgation of laws, judicial judgments, approval of charters transferring land, settlement of disputes, election of archbishops and bishops and other matters of major national importance. The witan also had to elect and approve the appointment of a new king. Its membership was composed of the most important noblemen, including ealdormen, thegns, and senior clergy.

Don't use The King, obviously.
