Exeter City Living Ltd
Devon County Council
Skypark Developments Ltd
St Modwen Developments Ltd

carparks@exeter.gov.uk

Under Common Law this is blocking our passage.
Under GESARA LAW you are not allowed to enforce taxes.
Under Martial Law you would be in prison.
Under Corporate Law you are not allowed to deal with the public.
BAR Law no longer exists.

These carparks & toilets were once considered to be public property.
There appears to have been some malfeasance in the past allowing you or some corporate entity to "own" public property.

As a Corporate Entity you are not allowed to bill, charge taxes or charge for parking to an individual. You only do so by connivance. By using your financial authority over the police & the courts.
We noted that you kidnap the children of political activists.

Your history with Exeter Living shows you to be a Crime Cartel.
We, The People would be committing a crime to pay your Council tax bills.

Your whole attitude to the creation of the Exeter Smart City was flawed in so many ways which are outside of your remit.
The 5G Exeter Smart Radiation & surveillance grid was a Crime Against Humanity which you illegally financed with Taxpayers money.
One minute your building student flats everywhere, destroying the social cohesion of the population, locking us down & removing friendly, people notice boards, in newsagent shop windows..
Your LTN & cycle track agenda was totally without merit.
Your electric bike agenda was dangerous to all pedestrians.
Your vaccination agenda was pure evil.
The installation of the French owned 5G Radiation Grid was Treason.

You built your staff & yourselves a very convenient £40 million swimming pool & fitness gym right next to your offices.

How selfish are you?

We can't afford to park in Exeter!! Let alone swim.

When you are criticized you hide & say it's nothing to do with you. It's the corps or it's central government.
What do we pay you for? To do nothing?

Your Climate Emergency was a complete fraud.

The net zero taxes were a money laundering tax on the population.

And your highly clever Climate Emergency allowed you hundreds of secret meetings to organize, co-ordinate every public service institution in Devon into one big databank with all our details on it. A massive Data Fraud.
And a collective war on the population by the Judiciary, the police, the NHS, SWW, solicitors, ECC, DCC, & all regional Councils.

I really don't know how you have the cheek to call yourselves Public Servants or even go to work.
You are criminals in suits.

A Corporate Crime Cartel that bribes the police & the Judiciary with our taxes.
Your immorality contaminates your society & those around you.
