CYCLISTS ARE THE NEW ANTIFA

Local Councils have turned our cities into Cycle Zones.
Where pedestrians & motorists are
Cyclists have their own roads, there own lanes
Pedestrians & pensions walk on pavements at their own risk
Cyclists have no idea of The Highway Code
And have been allowed to go anywhere & everywhere without any consideration for others.
This is a new battle line caused by the Aristocrat Councils to divide & rule the population.
To create conflict within our society.
To start a war of attrition between road users.

The Aristocrat local councils now allow cyclists to use pavements & pedestrian paths.
This has traumatised pensioners & put them in continuous danger

Cyclists.think they deserve to be privileged every where they go.

Cyclists are no longer trained by the police in schools on the Highway Code, road safety or polite behaviour.
They do not even have a speed limit.
Pensioners find they have been bullied off pavements, & open spaces by cyclists aggressive behaviour.
Pedestrians occasionally come within split seconds of hospitalisation by cyclists on blind corners.
And they ride aggressivly straight at pedestrians.

The privileged cycling elite are now being financed to cause friction within society.
To aggressively demostrate & take over our streets.
This is the new government financed Anti Fa.
Paid to overrun our peaceful walks & lifestyle.
Paid to destroy our society with Divide an Rule conflicts.
To the exclusion of all others.
Bring back The Highway Code for cyclists & keep them off pedestrian walkways.
