THE KILLING FIELDS OF ENGLAND

The population of England was a moral & Christian group.
The working class had an ethic which recognised their place in society. They accepted the Aristocratic class as rulers & trusted them to be honest.

The Aristocrats on the other hand regarded this Working Class morality with disdain.
It was almost as if the workers were morally superior, which annoyed them.
The Working Class knew right from wrong, good from bad & moral from immoral.
So the UK Aristocrats decided to destroy the working class & all it's structures.
The WAR ON HUMANITY began.

THE WAR ON HUMANITY

Coal mines & unions were attacked, religion was sneered at, family & social structures were destroyed.
Pubs, social clubs, restaurants, churches were targeted.
After a few decades this got more intense.
Government taxes were diverted to groups who were anti society.

The Corporate infrastructure; roads, railways, parks, telecoms, were stolen & used to charge more taxes & money laundering.
Drinking water was contaminated with poisonous additives & female hormones. (LGBTP)
Food was contaminated with additives to shorten lives & create cancers.
Agendas were used to promote health but actually removed healthy ingredients & implanted indigestible chemical substitutes.
Charities were used to raise money for the sick & disabled only to be money laundered into Aristocrat funds.
Climate Change, NetZero, Lockdown, Covid, Vaccines were used to destroy the UK economy & unfortunately the World Economy.

The medical industry used drugs & vaccines to charge us for Free prescriptions.
The National Health Service was used to promote dangerous, addictive & useless drugs.
Butter, fat & honey were removed from foods
Doctors were paid for Big Pharm drug tests.
Food protection agencies were destroyed.
Drug protection agencies were corrupted.
Hospitals, Scientists, Laws, Courts & Lawyers corrupted.
The new motto for the UK civil service was "Build Back Better,"
Which, of course, meant, destroy England & rebuild it as Prison Cities & Freedom for the Aristocrat thieves.

The Richest people in human society are the most violent psychopath criminals.
