

I haven't heard any apologies from Exeter Civil Servants & Councillors for all the mistakes that they have made over the last few years.
Although they claim to work for the public it is obvious from this Exeter City plan, that you work for The Corporations.

You appear to be giving out contracts to sign us up, your wage payers, for another 20 years of debt, fraud & socialist Marxist insanity.

You just spent the last three years on a plan which destroyed the local economy, the local businesses & the local structure of society & families.

You destroyed our schools with your sexual relationship insanity. The Trans ideology. The LGBT agenda, the destruction of our children's, religion, family bonds morality, trust & security.

And here you are again promoting it in your Exeter City Plan for the next 20 years. A plan paid for by Exeter tax payers.

You charged us full Council Tax when you weren't at work.

You have raised car park charges to the public so we cannot use City centre facilities, while having your own free car parks & concessions.

Are you completely insane? Here we are in a country that is totally bankrupt & on the verge of a direct war with Russia & all your interested in, is not how to help your constituents pay their energy bills, but how you & your Corporate interests are going to get paid for the next 20 years.

The Trans policy you have implemented puts women in danger.
They are not allowed privacy in their own toilets & changing rooms.

You have already committed a multitude of Crimes Against Humanity.
Shouldn't you take a good look in the mirror at your past actions before committing us to paying for your paranoid control freakery.
