

2018: THE RISE OF THE NAZIS IN EUROPE & AMERICA.

While we were sleeping in our homes & watching TV, football & music our government was being surreptitiously taken over by a sinister force from the past.

First they concealed themselves as Corporate Materialists as they took over the money supply with Central Banks. Then with War & Fraud they took over every nation under the chameleon of Liberalism.

They hid their true nature & their true purpose as they placed their agents into every City in the West & to control every government department.

Underneath this cover they threatened & blackmailed every person who got in their way.

They owned the media & built up their own corporate police force & mercenary armies to fight their battles. They assassinated those who tried to expose them & facilitated those who ran Crime Cartels. They wanted to create chaos & destruction worldwide so no one would notice their actions & plans.

You should not feel ignorant or naive for having missed these occurrences. We have all been played. We have been worked & robbed continuously to keep us distracted. We have been intentionally damaged by poisons, vaccines, drugs & alcohol.

Even those of us who have read & watched these events unfold on a daily basis have not understood the worldwide implications of these events for ourselves & humanity.

We have put together events without seeing the whole picture;

But This is 2018 and we are witnessing;

THE RISE OF THE NAZIS IN EUROPE & AMERICA.

World War 3 is already underway.

Again, I should explain, that in these times it is sometimes impossible to understand the movement of Nations & Armies. Especially with the last 50 years of Main Stream Media brainwashing, distraction, disinformation & outright lies.

We do not understand this Globalist World where allegiances change on a weekly basis & National Government are factionalised into differing Foreign Policies.

Strangely, for instance, Russia is the Western Populations ally not its enemy.

Russia is the Enemy of our Fascist Nazi rulers in The City of London.

Russia is no longer a Communist State but has had a resurgence of Christianity, it will therefore protect the Christians in Europe against the Fascist Nazi Satanic Global Government in London, Berlin, Brussels & Washington.

That is why the Tory Gov, UK/US Deep State & the US so called Democrats oppose Russia.

THEY are at war with Russia, not us.

We, The People, are fighting for control of The Central Banks & those in power will do anything to keep hold of them & cover up their past crimes.

As President Donald Trump fights to replace all the Psychotic Nazis in his administration, they are attempting to destroy his every move, with The Evil Media bashing the population with daily Treasonous Lies & Conspiracies.

The Western Populations have been divided by The Media into those who believe them & those that don't. The Media is The Enemy of The People.

This is the breeding ground for the Nazi Takeover of The Worldwide Global Government and already many governments, including ours, have betrayed us.
