

Manifest Injustices,

Austerity continues although it was caused by City of London Bank Failure. (intentionally)
Since then we have had continuous printing of money by the Bank of England
which was given to The Bankers to play with on The Stock Exchange.
The Bankers have doubled their money & failed to repay their debt to the Taxpayers of the UK.
So the vice like grip on the population continues and is proved to be by design.

We have also seen the results of The Infrastructure Act of 2015,
passed through parliament by all parties in silence 3 months before the last general election
(No main stream media reporting.)

Where the Fracking industry setup paid for by taxpayers was authorised
along with the privatisation of the roads

The move of planning consent to central government
And the transfer of every public owned piece of land & property deeds
from the County, Local & City Councils & Public Agencies
to The Land Registry for City of London Corporate asset stripping

The Rentier Society has evolved where no one actually owns anything any more
they just rent stuff, so when they stop work, sickness, unemployed or old
They lose all their possessions.

We have zero hour contracts for workers.

The Consumer Rights Act 2012 has also been implemented
giving consumers no rights any more

Only a pathetic process of slow tedious bureaucratic diversion.

We no longer have any discourse to the courts against any business or Corporation

As the courts no longer have any jurisdiction over Corporations. (was ISDS implemented?)

And the NHS with all its faults appears to falling to the Big Pharm criminals

who manufacture drugs to cause epidemics, sterility, kill yellow people, autism, Ebola, Zika etc
Agenda 21 is completing.

Currency Reset

There is now a currency reset which will shift the US dollar away from its reserve currency status
The Deep State criminals have declared covert war on 5 countries & threatened to nuke them all.

So as the rest of humanity progress along its future plans for a peaceful & prosperous world.
The psychopath Bankers in The City of London get more & more paranoically insane.

Now that The Queen has been refinanced by the gold backed SDR, reserve currency.

The City of London Bankers appear to be in conflict with not only
the United Kingdom population and the UK government but also with our Queen.

The Rothschild City of London Bank of England is the Mother Bank
to 165 world wide Rothschild Central Banks and therefore the centre of The World Economy.

Unfortunately, it is assumed that these City of London Bankers still have control over the HM
Treasury, The Ministry of Defence & the Main Stream Media.

So although we are on the verge of a new dawn for humanity.

The psychopathic bankers are also on the verge of starting nuclear World War 3
to keep their War & Fraud economy going.
